

# Mokon's 16 Point Service Check-up for only \$325.<sup>00</sup> !

Let us verify and upgrade the operation of your Qualifying Water System\* with our 16 point check up and receive a new One Year Warranty. Here's our check list:

- ✓ Low Pressure Switch
- ✓ Cooling Solenoid
- ✓ Overload Setting
- ✓ Pump Output
- ✓ Pressure Gauges
- ✓ All Lights
- ✓ Wheels/Casters
- ✓ Verify any options
- ✓ Fuses and holders
- ✓ Heater electrical values
- ✓ High Temperature switch
- ✓ Electrical Termination Points
- ✓ Process and Limit Controls
- ✓ Plumbing for Leaks
- ✓ Clean Motor Vents
- ✓ Motor current draws

In addition to inspecting and validating your system's components we will replace, regardless of their condition, the pump seal and heater contactor. Plus using Mokon's proven D-Scaler system solution; we will thoroughly de-scale your system! Full testing and calibration of the system are included in this package.

Finally, when we are done your system will receive a new One Year Warranty!
